

Infant Scale

Model DS4100

Designed for portability and accuracy, the Model DS4100 is the perfect choice for a traveling nurse or a pediatric office. Backed up by a three year warranty, the scale features a one-piece design that is sturdy and lightweight.

With accuracy only found in more expensive scales, your medical staff will now be able to track even the smallest weight changes with ease.

The patient's weight is quickly "locked-on" and the weight is displayed in the large LCD read-out.

MAXIMUM CAPACITY

45 x 0.2 oz (20 kg x 5 g)

ACCURACY

+/- 0.2 oz (5 g)

SCALE DIMENSIONS

25" L x 13.75" W x 3.75" H

DISPLAYED UNITS

lb:oz, kg

CONTROLS

On/Off, Reweigh, LB, KG, Zero

A beep signals that the weight has been "locked-on" allowing attention be focused on the patient, rather than the weight display. The weight remains on the display until the Zero button is pressed or the scale is turned off.

The Reweigh button, a feature unique to the Doran DS4100, zeroes the scale and reweighs the infant without removing the baby from the scale.

POWER

Four AA Batteries (Included)

BATTERY LIFE

Three year battery life

CONSTRUCTION

ABS Plastic Housing

OPTIONS

Carrying Case

WARRANTY

Three Years
