

# Remote Indicator Scale

## KEY FEATURES

With its versatile design, the affordably priced DS6150 offers a variety of applications. Whether your application is a physician's office, acute care, or visiting home nurse, the DS6150 can meet your needs. The indicator can be placed on a tabletop or attached to a wall using the mounting bracket. The DS6150 scale base is constructed of heavy gauge steel ensuring a long life and the entire scale system is backed by a three year warranty. To ensure patient safety, the scale base is covered edge-to-edge with a non-skid material.

As soon as the patient steps onto our sleekly designed, low-profile DS6150 platform, an accurate weight up to 500 pounds will be held on the display. Doran's exclusive *Weight Lock* feature ensures an accurate weight is displayed regardless of a patient's movements. Our *Reweigh* functionality allows a second weight to be acquired while the patient remains on the platform.

Standard USB and RS-232 communications ports allow the recording of a patient's weight and BMI value by an EMR/EHR system.

## SPECIFICATIONS

<b>Warranty:</b>	Three Years
<b>Power Input:</b>	AC Adapter (Included) 100-240VAC, 50/60HZ ULc, ULus, CE 6 AA batteries NOT included
