

Handrail Scale

KEY FEATURES

Heavy duty construction, accuracy, and reliability – all at an economical price. The welded tubular steel structure of the DS7100 provides a handrail at the ideal height and wraps around the generously sized weighing platform. To ensure patient safety, the DS7100 features a larger platform covered edge to edge with a non-skid surface, along with a 1,000 LB capacity and enhanced durability for long-lasting performance.

Moving the scale from room to room is easy. Simply tilt the scale back on the two built-in, non-marking wheels and roll the scale to its new destination. The large diameter foot pads makes sure the scale remains in place when the patient steps on and off the scale.

Doran's exclusive *Weight Lock* feature ensures an accurate weight is displayed regardless of a patient's movements. Our *Reweigh* functionality allows a second weight to be acquired while the patient remains on the platform.

The DS7100 features RS-232 and USB ports allowing the patient's weight and BMI values be sent to an EMR/EHR system.

SPECIFICATIONS

Warranty:	Three Years
Power Input:	AC Adapter (Included) 100-240VAC, 50/60HZ ULc, ULus, CE 6 AA batteries NOT included
Battery Life:	11,000 Weighments
Maximum Capacity:	1000 x 0.1 lb (454 x 0.05 kg)
Construction:	Aluminum and Painted Steel with Plastic Trim
Dimensions:	Overall Dimensions 25" W x 29" D x 46" H Platform Dimensions 22.5" W x 20.5" D x 2" H
Display:	1" Tall LCD
Displayed Units:	lb, kg, Units lock feature
Controls:	Units, Reweigh, BMI, Zero, and Scroll Up/Down
BMI Calculator:	Input data in FT/IN or CM
Options:	RS232 Communications Cable USB Communications Cable WiFi Communication International Power Supply

DS7100-HR

The Model 7100-HR offers the same features of the 7100 Handrail Scale with the addition of an integrated height rod.
